

We would like to take this opportunity to Welcome you to Texas Regional Eye Center.

Forms

We ask that all new patients complete our medical questionnaire. The information we request in this form will be extremely valuable to our physicians in providing new patients with the best possible care.

We have included the medical questionnaire on our website because we find some patients feel it is easier to fill out the form prior to their initial visit. **Please bring the completed form with you on your first appointment. Do NOT mail the forms to our office prior to your visit.**

If you need your medical records from another physician to be transferred to Texas Regional Eye Center or wanting Texas Regional Eye Center's medical records to be transferred elsewhere, you will need to fill out a Medical Records Release Form. We have included that form on our website for your convenience. Please print, fill out, and either mail or fax the completed form to the necessary physician/facility.
